

CONSTRUCTION UPDATE

Traffic Shift on Southbound Florida's Turnpike at I-75 Scheduled to Begin Thursday, December 1

The Florida Department of Transportation (FDOT) is scheduled to shift southbound traffic on Florida's Turnpike from east of the I-75 interchange (MM 39.4) to west of the I-75 interchange (MM 39) to allow crews to complete bridge construction of the direct connect bridges between the future 75 Express lanes and Florida's Turnpike. Beginning Thursday night, December 1, all southbound lanes of Florida's Turnpike will be shifted to the northbound lanes and will remain in this configuration until Summer 2017. There will be no reduction in lanes and a temporary barrier wall will separate northbound and southbound traffic.

Please note that this schedule may change due to inclement weather or other unexpected conditions.
